PROJECT EXPERIENCE

ParentCare Website Redesign (Capstone Project) - NAIT

- Conducted usability testing with 4 - 5 participants to identify navigation friction points and improve content clarity.
- Restructured sitemap and user flows, reducing navigation complexity and improving content discoverability.
- Designed wireframes and high-fidelity prototypes in Figma.
- Collaborated with stakeholders and developers for accurate implementation.
- Strengthened visual consistency through structured typography and layout systems.

Application Dashboard Interface (MUI Project)

- Designed structured dashboard layouts to improve data visibility and support faster user task completion.
- Built reusable UI components aligned with modern interface standards.
- Ensured alignment between design structure and front-end implementation.

WORK EXPERIENCE

Supervisor - JD Sports | Edmonton, AB | Oct 2024 - Present

- Promoted from Sales Associate based on performance and leadership.
- Lead daily operations and coordinate team workflows.
- Train team members and maintain brand consistency.
- Analyze customer interactions to improve the in-store experience.
- Resolve customer concerns using structured problem-solving.
